### To the Student

At the end of each chapter, several questions are given in different sections.

**Section A - Objective Type Questions** (also useful for competitive examinations) and **Very Short Answer Questions** - a bunch of four questions would carry a weightage of **1** (assuming that a bunch of four objective type questions is the equivalent in range of one short answer question)

**Section B - Short Answer Questions** and problems carry a weightage of **1**

**Section C - Short Essay Questions**, derivations and problems carry a weightage of **2**

**Section D - Long Essay Questions**, derivations and problems carry a weightage of **4**
